*A Bureau Veritas AsureQuality Joint Venture*

Today, consumers want to know where their food comes from, how it was made and processed, and how its quality was preserved. As such, food producers and manufacturers need to demonstrate responsible practices, full product traceability and compliance to stringent regulations, all of which are becoming an increasingly complex feat in light of globalised supply chains.

At BVAQ, we believe every consumer has the right to know what is in their food and to know that it is safe. A Bureau Veritas and AsureQuality joint venture, we provide access to more than 2,000 employees and 44 offices and laboratories throughout Australia, New Zealand and Southeast Asia, helping the food industry meet the ever-changing demands from consumers and legislative requirements.

## Bureau Veritas AsureQuality (BVAQ) in SEA

- 01 Present in 9 South East Asian countries
